**Statement of the director on the course of Phase II of the evaluation and on the Final Report**

As the director of the Czech Language Institute, I declare that the course of Phase II of the evaluation of the Czech Language Institute was consistent with the Methodology of Evaluation of Research and Professional Activity of Research-Oriented Institutes of the Czech Academy of Sciences for the Period 2015–2019.

The Final Report provides an accurate and balanced view of strengths and weaknesses of the Czech Language Institute and its position in the field of language sciences. It also reflects on the Institute's role in society and the high societal relevance of its outputs.

I would like to thank both the commission and the organizers of the evaluation for their excellent cooperation.

Martin Prošek  
Director
